Report: Leprosy Survey Training Meet.

Event: Leprosy Survey Training Meet.

Date: 29th January, 2025.

Objectives: To equip participants with the knowledge and skills for effective leprosy detection, reporting, and control.

Highlight: The **NSS Unit** successfully organized a Leprosy Survey Training Meet to equip volunteers with essential skills for early detection and awareness. Volunteers actively participated in survey training sessions conducted by health experts. They learned to identify symptoms, interact with affected individuals, and document findings systematically. Awareness campaigns were carried out in local communities to educate people about leprosy and its treatment. Volunteers engaged in door-to-door surveys, ensuring accurate data collection. They assisted healthcare professionals in identifying suspected cases for further medical evaluation. Informative pamphlets were distributed to dispel myths and reduce stigma. The session emphasized the importance of timely medical intervention and government healthcare initiatives. The activity strengthened volunteers' commitment to public health and social responsibility.

Total Number Of Volunteers – 14.
