- Volunteers were also acknowledged about doing distribution properly and maintaining discipline.

Report: Volunteering in Cement Water Bowl Distribution for Animals at Thane by Pal Foundation.

Event: Volunteering in Cement Water Bowl Distribution for Animals at Thane by Pal Foundation.

Date: 1st March, 2025.

Objectives: To provide sustainable water sources for animals in, ensuring their hydration and well-being.

Highlight: The **NSS Unit** of our college actively participated in the Cement Water Bowl Distribution Drive organized by Pal Foundation in Thane. Volunteers distributed durable cement water bowls at various locations to ensure animals had access to clean drinking water. The initiative aimed to prevent dehydration and promote the well-being of stray animals, especially during extreme weather conditions. Volunteers placed the bowls in areas frequented by animals and filled them with fresh water. They also interacted with locals, spreading awareness about the importance of providing water to animals. The team ensured that the bowls were placed securely to prevent damage or displacement. Through this initiative, volunteers contributed to a sustainable and compassionate solution for animal care. Their efforts helped create a positive impact on the local ecosystem. The event successfully instilled a sense of responsibility and empathy among the volunteers.

Total Number Of Volunteers – 07.
